

PLATINUM PROTECTED

Providing unparalleled protection against rot, fungus, mold, mildew, and even termites, PLATINUM PROTECTED stands apart from other trim products for its multi-phase protection process that covers all four sides of the substrate and ensures the ultimate in defense against the natural environment.

Not for use in an exterior siding application with direct exposure to the elements. Any use in those applications will void any and all warranties.

PLATINUM XL

The Platinum XL line is the flagship line in our family of interior/exterior S4S trimboards. Made from a clear finger-joint Radiata substrate and vacuum coated with 2 passes of exterior bright white, acrylic latex water based primer, the Platinum XL line is ideal for both interior and exterior applications.
